Adopt A Class at Cincinnati Museum Center!

AAC Encourages Innovation at Cincinnati Museum Center

This year, Adopt A Class partnered with Cincinnati Museum Center to offer fifth grade students a chance to visit the Made in Cincinnati interactive gallery at CMC. In addition, students were tasked with creating an invention of their own in the CMC classroom, using a bag of miscellaneous items put together by Crayons to Computers! Students were excited to showcase inventions such as rocket launchers, shoe protectors, and interactive shopping bags!
