AAC Brings Students to Local Colleges

AAC visits Cincinnati State & UC!

In March, 600 students from grades 6- 8 came together from 10 different schools to experience a day in the life as college students on the campuses of UC & Cincinnati State. Students explored campus while learning about a range of careers including Culinary, Horticulture, Health Sciences and Automotive!

We are thankful to our amazing partners who made these experiences possible. UC & Cincinnati State continue to go above and beyond to ensure their students are exposed to a breadth of career and life skills!

AAC and Cincinnati State staff pose with over 200 students from AWL, Mt. Airy, Mt. Washington, Oylar & Sayler Park.
